

For Parents: Logging into myPueo

All parents of the Mid-Pacific community now uses Blackbaud ID (BBID) which uses your email to log into the myPueo website. Your parent login was created upon inquiring about applying or applying to Mid-Pacific.

- ! The email used for BBID must be a **unique email address**. In other words, two separate parents/guardians **cannot share the same email address**.

Parents/guardians that are sharing a single email address will first need to change their email address on their myPueo profile page to a unique email address. **Please do this prior to converting to BBID**. Learn how to change your email address in myPueo [here](#).

- i The images used in this guide were created using a desktop web browser. If you are using a mobile device, the images may not exactly match what you see.

- 💡 To create your BBID, first answer this question: Does your email account use Google for email OR end with @gmail.com

Most Google accounts end with @gmail.com, but if your company uses Google for their email, choose **YES below**. Example: Mid-Pacific uses Google for email but ends with @midpac.edu.

If Yes choose #1 in Table of Contents.

If No choose #2 in Table of Contents.
